RESEARCH SPOTLIGHT

The surprising discovery that's easing joint discomfort—*The EGG!*

The next time you're making eggs for breakfast, take a peek inside the shell. You'll notice a thin, double-layer membrane that some scientists call NEM®, short for eggshell membrane.

NEM has the shock absorbency power to cushion the egg's fragile contents. It's packed with major joint-supporting nutrients such as chondroitin, hyaluronic acid, collagen, and other glycosaminoglycans—all of which occur

naturally together within the chicken eggshell membranes.

NEM is the only eggshell membrane ingredient with multiple published safety and efficacy studies for joint health. Multiple human studies show fast and continued results for joint comfort and flexibility with a small, 500 mg daily dose—the same amount I've include in all 3 of my joint formulas.

The “GOOD STUFF” your gut needs every day

- Slow-release delivery for all-day digestive support
- 2 billion live, beneficial bacteria, guaranteed at expiration
- Prebiotics to feed the probiotics
- Relieves occasional constipation

EMPLOYEE
FAVORITE
**SAVE
50%**

Probiotics are like a multivitamin. Everyone should be taking them even if you don't have digestive woes. Nurturing the delicate balance of beneficial bacteria in your digestive tract is absolutely critical for optimal health—critical, in fact, for life at all.

I look at **Probiotic Advantage®** as my prevention “workhorse.” If you digest food properly and don't regularly take prescription medications, **Probiotic Advantage** is for you. The 2 billion live probiotics in 7 extremely hardy strains help maintain healthy, comfortable digestion and overall good health.

Special delivery technology guarantees probiotics are potent and working

The patented BIO-tract® delivery system slowly releases the probiotics throughout your gut for all-day comfort. And the special LiveBac® technology keeps the bacteria alive so they safely get to your intestines where they are needed to reduce gas, bloating, and occasional constipation.

SUPPLEMENT FACTS | 1 CAPLET GIVES YOU:

Probiotic Blend *L. fermentum, L. plantarum, L. acidophilus, L. rhamnosus, L. salivarius, B. bifidum, B. longum* **2 billion CFU;**
Fructooligosaccharides (FOS) 25 mg

Contains: Milk
Contains trace amounts of milk protein from the manufacturing process; however, suitable for individuals following lactose-free or lactose-restricted diets. With BIO-tract®, a patented technology and registered trademark of Nutraceutix.

RECOMMENDED DOSE: Take 1–2 caplets daily with water prior to any meal. Do not chew or crush.

★★★★★ *“It really works!”*

*“I am very pleased. Probiotic Advantage is essential for my digestion and overall health.”**

– Merryl D.,
Executive Assistant

Superior BIO-tract Technology

TRUE “CONTROLLED RELEASE.”

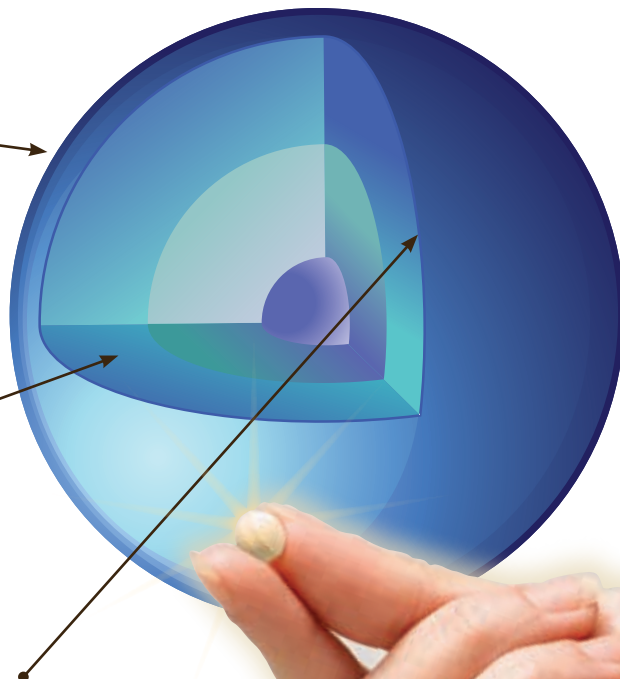

This amazing caplet forms a gel coating that protects the probiotics from stomach acid, then slowly and evenly releases the probiotics in the intestines, so they get to EVERY nook and cranny.

Seven highly beneficial probiotic strains

are evenly distributed throughout the caplet. Only **Probiotic Advantage** gives you this excellent combination with both advanced technologies.

Advanced LiveBac technology

ensures that **Probiotic Advantage's** beneficial probiotics are potent and working—right down to the core. Guaranteed effective for 18 months without any refrigeration.

4 NATURAL REMEDIES FOR ACID REFLUX and HEARTBURN

Acid-blocking drugs are widely promoted as the cure for heartburn and acid reflux. But these medications only provide short-term relief and ultimately lead to additional digestive woes. Instead, I recommend these simple, cheap, and much more effective natural remedies.

1 | GINGER ROOT POWDER

can be more effective for acid reflux problems than any over-the-counter or prescription medication. I suggest using a teaspoon of the freshly grated root each day.

2 | REDUCE SALT USE. Researchers in Norway discovered that individuals who routinely added salt to their meals had almost twice the risk of experiencing acid reflux problems. Substitute with other herbs, spices, and natural vinegars.

3 | CHEW GUM. When acid starts to reflux, try chewing on some gum—it's been shown to increase the volume of saliva by almost 140 percent. Saliva contains compounds that provide protection for the esophagus including proteins, mucin, prostaglandin E2, and epidermal growth factor.

4 | EAT FERMENTED FOODS.

Fermented vegetables, fermented milk products, kefir, fermented soy products, and even naturally fermented, unpasteurized beers contain live, healthy bacteria that can help correct acid reflux problems.

Probiotic Advantage® Bifido Beadlet 50+™

The PERFECT PROBIOTIC for us ~~“old farts”~~ FOLKS 50+

If you're over 50, you now need special digestive support. As you age, *Bifidobacteria*, the most common bacteria in your large intestine, and *Lactobacillus*, the most prevalent bacteria in your small intestine, naturally decline. And at the same time, levels of non-beneficial micro-organisms may increase. This imbalance can cause unpleasant symptoms, such as gas, bloating, and constipation.

Probiotic Advantage® Bifido Beadlet 50+™ is loaded with 2 billion of the specific bacteria you need

Each tiny Probiotic Advantage Bifido Beadlet contains 6 strains of beneficial probiotics to help support a healthy bacterial balance in your digestive tract. Each specifically numbered, researched strain comes from the leading producers I've chosen from around the world—from Japan to Denmark to the United States. It's the best combination of high-quality probiotic strains for people age 50+ to keep your entire digestive system running smoothly!

Plus, Advanced Bead-Lock™ Technology guarantees the delivery of the 2 billion LIVE bacteria for all-day comfort. This patented technology keeps the probiotics sealed and protected from harsh stomach acids until they reach your intestines. And no refrigeration is required!

Just one tiny, easy-to-swallow “beadlet” every morning can help relieve your digestive concerns—gas, bloating, and occasional constipation and diarrhea.

SUPPLEMENT FACTS | 1 BEADLET GIVES YOU:

Probiotic Bifido Beadlet 50+ Blend: *B. longum* BB-536, *L. acidophilus* NCFM®, *B. lactis* BI-04, *L. plantarum* Lp-115, *B. infantis* M-63, *L. rhamnosus* Lr-32 **2 billion CFU**

Contains: Soy, Milk

RECOMMENDED DOSE: Take 1 beadlet daily prior to a meal. Do not chew or crush.

Seal pouch after each use for freshness.

★★★★☆ “Really easy to swallow, and does the trick”

Dr. David Williams

Probiotic Advantage® Colon Health

IRONCLAD PROTECTION for a comfortable colon

- ✓ 10 billion live, healthy bacteria
- ✓ Supports regularity without overstimulation
- ✓ Softens stools with less gas or bloating
- ✓ Slow-release delivery for all-day digestive support

Probiotic Advantage® Colon Health is great for those who experience more hardcore digestive concerns.

You're guaranteed the delivery of 10 billion live probiotics in 10 powerful strains along with Actazin™, a rare green kiwi extract from New Zealand, for advanced support. If you don't eat enough fruits and vegetables, Actazin provides a measure of fiber that helps with regularity so everything can flow more smoothly.

Actazin's special 4-way action system boosts digestion in the colon gently with prebiotics, polyphenols, a special enzyme called actinidin, and insoluble fiber.

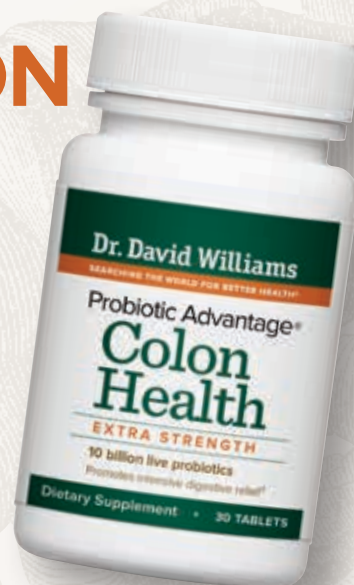

International DISCOVERY ALERT

Actazin is created from the New Zealand green kiwi, a plant that's unique to that part of the world. The thinning ozone layer over New Zealand has an unexpected perk—more sunlight reaches these plants, making this green kiwi much more nutrient-dense than ordinary varieties. The prebiotics, enzymes, and insoluble fiber 'digestive boosters' in Actazin give you extra-strength digestive support and improved regularity.

Dr. David Williams

Actual size

DIGESTIVE HEALTH

Special prebiotics and antioxidants give you long-lasting comfort

Prebiotics "supercharge" the probiotics, and the polyphenols are a powerful group of antioxidants that help probiotics to better adhere to the wall of your intestine. Plus, you get the patented BIO-tract® slow-release delivery system and LiveBac® technology for all-day digestive comfort.

Digestive Enzyme Advantage™

Breaks down hard-to-digest foods

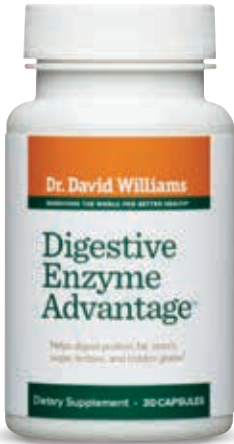

Digestive Enzyme Advantage gives you a complete range of digestive enzymes that break down hard-to-digest foods including complex carbohydrates, starches, fats, sugars, proteins, and even lactose and hidden gluten.

It also contains other stomach-soothing herbs to support a healthy intestinal tract and keep you comfortable. Plus, you get a special protein from a protease enzyme that has been shown to break down casein and gluten proteins. It's the perfect companion to your probiotic.

“Giving your digestive system a combination of good bacteria and digestive enzymes is the best way to ensure it is running smoothly. You truly will feel the difference.”

Dr. David Williams

Probiotic lozenges deliver year-round oral and sinus support

For decades, I've continually stressed the importance of probiotics and their relationship to the intestinal tract. I feel just as strongly about probiotics for oral health.

The strains and balance of bacteria in oral probiotics is totally different from intestinal probiotics. But the goal is the same—trying to naturally promote beneficial bacteria.

The state of your mouth is often a strong indicator of the health of your entire body. The primary benefit of probiotic flora in your oral cavity—the mouth, throat, nose, sinuses, and ear canals—is to support a healthy immune system. Plus, it helps freshen your breath.

The research is impressive

Probiotic Advantage® Oral Sinus contains a powerful combination of *S. salivarius* K12 and *S. salivarius* M18, the ONLY probiotics developed to colonize in the oral cavity. In one clinical study, *S. salivarius* K12 was shown to help promote throat, pharynx, and ear health in children.¹ In a separate clinical study, *S. salivarius* K12 promoted a healthy environment for the throat and pharynx in adults when taken on a daily basis.² Plus, you get *L. reuteri*, which has been shown to support healthy teeth, mouth, and gums.

I take **Probiotic Advantage Oral Sinus** every day and suggest you do as well. It's not just important as we grow older and are trying to take a load off our immune system. The problems associated with oral bacteria start early in life. That's why I think oral probiotics are just as important as digestive probiotics and should be taken by everyone.

SUPPLEMENT FACTS | 1 LOZENGE GIVES YOU:

Vitamin D (as cholecalciferol) **400 IU**; **Zinc** (as oxide) **5 mg**;
Oral Probiotic Blend† *L. reuteri*, *S. salivarius* K12,
S. salivarius M18 **40 mg**.

Contains: Milk (Product may contain trace amounts of milk from fermentation process.)

†Contains 1 billion live bacteria when manufactured and provides an effective level until at least the expiration date.

RECOMMENDED DOSE: Adults and children 4 and older: Dissolve 1 lozenge in mouth once or twice daily, preferably after brushing teeth and/or mouthwash, and then swallow.

ADAPTOGENS:

Nature's Stress and Fatigue Fighters

Are you stressed or fatigued? One of my favorite healthy ways to get through the day is with adaptogens. You're probably thinking adapto-what? An adaptogen is a nontoxic plant that treats a wide-ranging list of stress-related concerns by helping your body adapt to stress and resist fatigue as well as keep your body in balance.

Here's some of my favorite adaptogens that I refuse to go a day without. Plus, I've included them in several of my exclusive formulas.

ASHWAGANDHA has a long history of traditional use in Ayurvedic medicine—supporting mental function, positive mood, and your body's stress response.

Plus, it's an outstanding antioxidant that gives you added immune system support.

GINSENG is one of the most well-known adaptogens that has been used in traditional Chinese medicine to enhance energy levels and regulate the adrenal glands.

RHODIOLA ROSEA is backed by numerous studies, including a double-blind, clinical trial showing it fights fatigue and enhances physical and mental performance. Other studies show it helps with irritability and sleep trouble, and enhances mood, memory function, and more.

I can honestly tell you... This natural mood booster changed my life

Sometimes you just need a little help to handle tough times. Zembrin®, a patented extract from carefully selected *Sceletium tortuosum* plants native to South Africa helps you cope with whatever comes your way—so you feel in control again!

Research shows Zembrin **increases the levels of serotonin and serotonin neurotransmission to positively affect mood, attitude, and outlook on life.**

ZemBright Mood Plus® combines this ancient botanical with **KSM-66® Ashwagandha**, an adaptive herb that helps your adrenals achieve internal harmony. I was floored by the amazing study results!

One study reported a significant reduction on the anxiety and mood testing scale...a notable reduction in the Perceived Stress Scale (PSS)...and levels of the stress hormone cortisol also dropped!

I've also included active B vitamins in **ZemBright Mood Plus** to support healthy brain and nerve cells and reduce mental fatigue.

Sceletium tortuosum plant native to South Africa

“The native San Bushmen of South Africa refer to this magical plant as ‘kama,’ ‘channa,’ or ‘kougoed.’ Centuries before European explorers arrived, the San people used the plant to help increase their energy, elevate their mood, and reduce effects of stress. Supplies are closely guarded, and exports are tightly controlled to ensure sustainable harvests. I had to get special permission from the San Bushman tribal leaders to get access to this amazing herb.”

Dr. David Williams

My Strongest Formula Yet

ULTIMATE RE

from hurting joints

You and I both know that joint discomfort can have a huge impact on daily life. Stiff, achy joints can really limit your mobility as well as zap your energy and spirit. That's no way to live. And that's why I'm a self-described "fanatic" for finding the best, most effective natural solutions for healthy, comfortable joints.

For nagging joint discomfort, you need more than a quick, temporary fix. You need to help support your body's healthy inflammatory response so discomfort doesn't stick around, and so you can maintain overall joint health. I developed **Joint Advantage Gold® 5X + Turmeric**, to do just that.

This powerhouse includes my traditional herbal blends as well as clinically studied ingredients for healthy, comfortable joints, plus a full 1,000 mg research dose of Meriva® Phytosome Turmeric Extract to help reduce inflammatory markers.

MERIVA—Nature's best kept secret for discomfort & flexibility

I have been a huge fan of turmeric for years. It's one of the only herbs I know of that can singlehandedly address some of today's greatest health threats, including joint discomfort and inflammation throughout the body. Research has shown that Meriva is 45 times more bioavailable than ordinary curcumin!

In a recent clinical study, participants taking 1,000 mg/day of Meriva for 90 days reported a decrease in discomfort by almost 50%, a decrease

in stiffness, and an improvement in physical function. Even more impressive, Meriva was able to significantly reduce levels of C-reactive protein (CRP), an important inflammatory marker in the body.

The studies on Meriva used the WOMAC index, the gold standard of testing protocol for all joint and bone research. No doubt about it, Meriva delivers outstanding relief that lasts!

AprèsFlex® *Boswellia serrata* extract delivers rapid relief

AprèsFlex is clinically shown to help promote healthy inflammatory markers in the body while reducing joint discomfort and stiffness starting in as little as 5 days! Standard boswellia is poorly absorbed by your bloodstream because it contains a glycoprotein that acts as a barrier. But AprèsFlex is enriched with an additional blend of natural compounds from the boswellia tree that inhibits the glycoprotein and significantly improves absorption. Plus, AprèsFlex goes to work to reduce 5 of your body's top inflammatory markers...not just the COX-1 and COX-2 enzymes. **See page 14 for more information.**

NEM® eggshell membrane

NEM is packed with joint-friendly nutrients, including chondroitin, hyaluronic acid, collagen, and other glycosaminoglycans. When put to the test, 500 mg daily helps relieve everyday discomfort, including a decrease in post-exercise induced pain.

Glucosamine sulfate

Study after study confirms that 1,500 mg of glucosamine sulfate helps promote healthy, comfortable joints. It can take a while to start feeling relief, though, which is why I always combine glucosamine with other botanicals and natural ingredients shown to start bringing relief more rapidly.

Traditional, exotic botanicals from around the world

I've travelled to Australia, Europe, and many other places researching traditionally used herbs. Wild rosella, devil's claw, white willow, yucca, feverfew, celery seed, bromelain, and papaya are ones I've been recommending for over a decade to help support everyday aches and pains.

Comforts NAGGING, ACHING JOINTS

Joint Advantage Gold® 5X gives you fast relief from joint discomfort. In fact, you'll begin to feel relief in as little as 5 days with AprèsFlex.

Years ago, during my travels to India, I learned that the gum resin from the boswellia tree has been used in Ayurvedic medicine for over 3,000 years to soothe joints. The problem is the standard form of boswellia is poorly absorbed by your bloodstream because it contains a glycoprotein that acts as a barrier. Then I found AprèsFlex, the king of boswellia. The extract is enriched with an additional blend of natural compounds from the boswellia tree, which inhibit the glycoprotein and significantly improve absorption.

In laboratory studies, AprèsFlex showed 51.78% greater absorption of AKBA, which is an active compound that inhibits the inflammatory pathways, compared to another popular boswellia product. And the research doesn't stop there.

Clinical research shows real relief

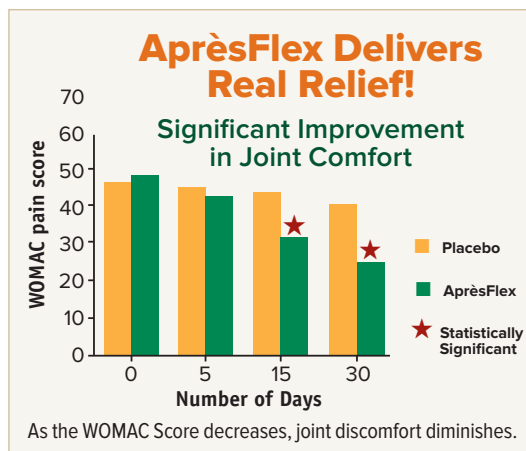

In a double-blind, randomized, placebo-controlled study, 59 individuals with stiff, achy joints took 100 mg of AprèsFlex or a placebo daily for 30 days. Three tests were used to measure discomfort, stiffness, and physical function—and in all 3, AprèsFlex came out on top.¹

- In a measure of pain intensity, with each participant indicating their perceived experience of pain, AprèsFlex showed a 14.8% better reduction than the placebo—starting in just 5 days.
- In a measure of daily functions hindered by discomfort, AprèsFlex showed a 16.3% better reduction—starting in just 5 days.
- And after 30 days, those taking AprèsFlex reported a 49.5% improvement in joint comfort...a 48.4%

improvement in stiffness...and a 45.2% improvement in functional ability.

In other research, AprèsFlex was shown to reduce the level of 5 of the body's top inflammatory markers. What's more, AprèsFlex was more effective than the leading boswellia extract at reducing the 5-LOX enzyme that contributes to the body's inflammatory response.

Plus, you get NEM, glucosamine sulfate, and my blend of traditional exotic botanicals from around the world for healthy, comfortable joints.

1 ESSENTIAL VITAMINS, MINERALS & ANTIOXIDANTS

Incredible head-to-toe support with core vitamins, minerals, and antioxidants everyone needs including: full B-vitamin family for normal homocysteine levels and cardiovascular health, highly absorbable CoQ10 for energy and stamina, N-acetyl L-cysteine (NAC) and alpha lipoic acid, 2 of nature's most powerful detoxifiers.

SUPPLEMENT FACTS | 8 CAPSULES GIVE YOU:

Vitamin A (as beta-carotene, retinyl palmitate) **10,000 IU**; **Vitamin C** (as ascorbic acid, mineral ascorbates) **1,000 mg**; **Vitamin D3** (as cholecalciferol) **1,000 IU**; **Vitamin E** (as d-alpha tocopheryl succinate, mixed tocopherols) **200 IU**; **Thiamine** **50 mg**; **Riboflavin** **50 mg**; **Niacin** **130 mg**; **Vitamin B6** **110 mg**; **Folic Acid** **400 mcg**; **Vitamin B12** (as cyanocobalamin) **100 mcg**; **Biotin** **300 mcg**; **Pantothenic Acid** **150 mg**; **Calcium** (as carbonate, citrate, malate, ascorbate) **1,000 mg**; **Iodine** (from kelp) **100 mcg**; **Magnesium** **500 mg**; **Zinc** **20 mg**; **Selenium** **200 mcg**; **Copper** **2 mg**; **Manganese** **10 mg**; **Chromium** **200 mcg**; **Molybdenum** **100 mcg**; **Potassium** **100 mg**; **Choline** **100 mg**; **Inositol** **100 mg**; **N-Acetyl L-Cysteine** **50 mg**; **Trace mineral complex** **50 mg**; **Para-aminobenzoic Acid (PABA)** **30 mg**; **Silica** **26 mg**; **CoQ10** **10 mg**; **Alpha Lipoic Acid** **10 mg**; **Boron** **1,000 mcg**; **Vanadium** **150 mcg**

2 ADVANCED PHYTONUTRIENT SHIELD®

In addition to the antioxidants that are well known for their tremendous free radical-fighting capacity, you get what I consider my "VIP list" of antioxidants, including resveratrol and tocotrienols, as well as advanced phytonutrients from nature's strongest superfruits: berry extracts, olive fruit extract, and more.

SUPPLEMENT FACTS | 2 CAPSULES GIVE YOU:

Blueberry extract **100 mg**; **Cranberry extract** **100 mg**; **Pomegranate** **80 mg**; **Sweet Cherry extract** **80 mg**; **Olive extract** **50 mg**; **Quercetin** **50 mg**; **Citrus bioflavonoids** **40 mg**; **Rutin** **10 mg**; **Resveratrol** **8 mg**; **Tocotrienols** **2 mg**; **Lutein** **2 mg**; **Lycopene** **1 mg**

3 HERBAL SUPERFOOD ENERGY™

Plant and herbal extracts that help support mental and physical energy, including a specific family of superfoods called adaptogens. Ashwagandha and eleuthero are just 2 of the powerful adaptogens in Daily Advantage.

SUPPLEMENT FACTS | 4 CAPSULES GIVE YOU:

Spirulina **600 mg**; **Turmeric Powder** **200 mg**; **Eleuthero Powder** **180 mg**; **Ashwagandha extract** **100 mg**; **Green tea extract** **100 mg**; **Rhodiola extract** **80 mg**; **Turmeric extract** **50 mg**; **Ginger Powder** **50 mg**; **Eleuthero extract** **50 mg**; **Pancreatin** **50 mg**; **Ox Bile** **50 mg**; **Asian ginseng extract** **80 mg**; **Betaine HCl** **20 mg**; **Lipase** **10 mg**; **Cellulase** **10 mg**; **Maltase** **10 mg**; **Protease** **10 mg**; **Amylase** **10 mg**

4 CLINICAL GRADE CODMARINE® FISH OIL

A daily dose of 600 mg of DHA and 200 mg of EPA helps support brain function, eye health, cardiovascular health, plus immune and joint health.

SUPPLEMENT FACTS | 2 SOFTGELS GIVE YOU:

CodMarine® Arctic Fish Oil **2 g**; **DHA*** **600 mg**; **EPA*** **200 mg**

Contains: Fish (northeast Arctic cod, saithe, haddock)

*As triglycerides; † CodMarine® is a registered trademark of Pharma Marine AS, Norway. MSC Chain of Custody certification code MSC-C-54671. From an MSC certified sustainable fishery. www.msc.org

Cheap Insurance Against the Flu

If you come down with the flu this year, I recommend taking Sambucol, a black elderberry extract from Israel. Sambucol begins to relieve symptoms in a matter of hours. I have personally used it for years, and it's never let me down. Plus, more and more research shows that it's effective against other viruses besides influenza.

You can find Sambucol online and in most health food stores. But, to use Sambucol as a preventative might be a little cost prohibitive. As an alternative, I suggest making your own elderberry liquid extract. It's something you can take every day during flu season, and you can make a batch for less than \$20. Go to drwilliams.com and search "Sambucol Recipe" in the search bar, then click on "Content" once the results populate.

A multivitamin is no longer optional.

It's a must for staying healthy—*here's why.*

It may be hard for most people to believe, since we have an abundant supply of food in this country, but the majority of our society is malnourished.

Compared to just a few decades ago, the vegetables and fruits available today have far less beneficial phytochemicals. And overconsumption of processed foods and sugars leave us without the micro- and macronutrients we need to function optimally. I've long written that the right vitamins and minerals are needed in the diet to maintain true wellness.

But not all multivitamins contain what you need to stay healthy and feeling youthful. After decades of research, I put what I believe to be the best nutrients together in **Daily Advantage®**.

And for over 20 years, no other daily multivitamin has come close!

I originally introduced **Daily Advantage** back in 1997 when most people weren't even thinking about taking vitamins. Yet, today, taking a comprehensive multivitamin is more important than ever.

It has always been my belief that you need to be proactive when it comes to your health. I feel it's imperative that you have an arsenal of protective fatty acids, proteins, minerals, and vitamins whenever possible. And **Daily Advantage** continues to provide just that.

Because of my background, knowledge, and relationships I've formed with experts around the world, I'm able to provide you with the exclusive combination of nutrients in **Daily Advantage**. In 2 small packets a day, **Daily Advantage** gives you 4 outstanding complexes with nutrients from across the globe.

RECOMMENDED DOSE: For best results, take 2 packets daily, 1 packet (8 pills) with your morning meal and 1 packet (8 pills) with your midday or evening meal. Take with at least 8 ounces of water.

Exotic international power duo keeps your cardiovascular system healthy

EMPLOYEE FAVORITE
SAVE 50%

I've come across 2 remarkable natural substances which, when combined, represent what I consider to be one of the best ways to support your cardiovascular health. I've combined these powerhouses in my **Total CardioCover®** formula. Here's the exciting story.

From the wild forests of India, the secret to optimal heart health

One of the most famous health remedies from India's traditional Ayurvedic medicine is the wild gooseberry (*Embolica officinalis*), known as amla. It's revered for its ability to support cardiovascular health. I recommend a very rare form called **AmlaMax®**. It has more antioxidants than cultivated amla. Three clinical studies found that taking 500 mg of AmlaMax a day **helps balance the ratio of HDL to LDL cholesterol to keep it in the healthy range**. Plus, it **supports healthy triglyceride levels** as well as **lowers C-reactive protein (CRP)**. The largest study was over a 6-month period.

From Japan, a breakfast food holds the key to healthy circulation

The Japanese have been eating a fermented soybean food called natto for centuries. It's an acquired taste, but it's the sticky strings that contain the clot-reducing, heart-supporting power of nattokinase.

I've long been a big proponent of nattokinase because this ancient Japanese secret has so many benefits, such as the ability to **support circulation and artery health by reducing clot-causing**

fibrin. The nattokinase I recommend was developed with a special patented process that removes the vitamin K from the natto extract. It also includes the full research dosage of 2,000 FU (fibrin units) of nattokinase per day, which is very important to its effectiveness.

To get the best results at your next checkup, it's key to take **Total CardioCover** every day, like I do. You'll be impressed with your blood test numbers and excellent circulation.

SUPPLEMENT FACTS | 2 CAPSULES GIVE YOU:

Amla Extract* (fruit) **500 mg**; **Nattokinase†** (from soy) (provides 2,000 FU research dose) **50 mg**

Contains: Soy

*AmlaMax® is a registered trademark of Dolcas Biotech, LLC.

†NSK-SD40® is a registered trademark of JBSL.

Total CardioCover® + Magnesium

Cellular Energy Support

Your heart can't afford to run low on energy. That's why I added a healthy 150 mg dose of magnesium to my original **Total CardioCover** formula and created **Total CardioCover® + Magnesium**. Magnesium is vital for cellular energy production. It boosts the production of ATP (adenosine triphosphate), your body's primary "fuel." Plus, it helps the lining of your blood vessels stay healthy for optimal blood flow.

CARDIOVASCULAR HEALTH

SUPPLEMENT FACTS 2 CAPSULES GIVE YOU:

Vitamin C (as mineral ascorbate) **100 mg**; **Magnesium** (as oxide, ascorbate) **150 mg**; **AmlaMax® Amla Extract*** (fruit) **500 mg**; **NSK-SD40® Nattokinase^s** (from soy) **50 mg**; (provides 2,000 FU research dose)

Contains: Soy

*AmlaMax® is a registered trademark of Dolcas Biotech, LLC.

^sNSK-SD40® is a registered trademark of JBSL.

RECOMMENDED DOSE: Take **2 capsules daily**: 1 with morning meal and 1 before going to bed.

DID YOU KNOW?

Taking probiotics can IMPACT YOUR CHOLESTEROL LEVELS

Increasing the amount of fiber you eat helps to keep your cholesterol levels in the normal range. Insoluble fiber is a good food for probiotic bacteria. The more you eat, the stronger they become, making it harder for undesirable bacteria to establish themselves.

Unwanted bacteria breaks bile acids down into a toxic product called lithocholate, which causes the liver to convert less cholesterol into bile acids. When less cholesterol is converted to bile acids, it begins to accumulate in the bloodstream. And less cholesterol reaches the colon where it can be excreted in bowel movements. A high-fiber diet promotes friendly bacteria that leave passing bile acids intact so your body excretes more cholesterol.

Stop struggling...

Drop extra pounds and trim your waist and hips

There's no such thing as a magic bullet for weight loss... but **MeraLean Advantage®** comes as close as it gets. First, it gives you Meratrim® which helps reduce body fat, even around the waist and hips.¹

Clinical studies show that participants who took 800 mg of Meratrim each day and followed a 2,000 calorie diet and walked for 30 minutes each day:

- **Lost 5 pounds and almost 2 inches off their waist after only 2 weeks**
- **Lost 12 pounds and almost 5 inches off their waist after 8 weeks**
- **Reduced hip size by almost 3 inches after 8 weeks**

That's more than 2 times better than those following diet and exercise alone!

I've combined Meratrim with GreenSelect® Phytosome which boosts metabolism and helps you burn fat. One clinical study shows that GreenSelect (along with a reduced calorie diet) helped participants lose up to 30 pounds over a 90-day period—TRIPLE the amount of a group just dieting.* Even better—instead of leveling

"I lost 30 pounds in three months... I've started taking MeraLean again to help keep those pounds off!"*

—Alex C.,
Operations

off, weight loss actually accelerated after 45 days.²

In a separate study, participants who took 300 mg GreenSelect Phytosome, combined with a calorie-restricted diet (a 1,000-calorie reduction for men; a 750-calorie reduction for women) and exercise regimen, lost an average of 26 pounds.³ That's 2X the weight loss of the placebo group! And, a reduced BMI and waist circumference!

Plus, you get green coffee extract to help keep your blood sugar steady and crominex® 3+ which is clinically shown to support your glucose metabolism, improve insulin sensitivity, and help maintain healthy blood glucose levels.

SUPPLEMENT FACTS | 2 CAPSULES GIVE YOU:

Chromium [as Crominex® 3+ & chromium stabilized with Capros® standardized Amla Extract (fruit) and PrimaVie® purified and standardized Shilajit] **200 mcg**; **Meratrim®** § **Blend** *Sphaeranthus indicus* Extract (flower heads), *Garcinia mangostana* Extract (fruit rind) **800 mg**; **Green Coffee Extract** (fruit, decaffeinated) **400 mg**; **GreenSelect®◆ Phytosome** Phosphatidylcholine (from soy), Green Tea Extract (leaf, decaffeinated) **300 mg**

Contains: Soy

JOIN THE CONVERSATION

“I admit, I wasn't a huge fan of social media at first. In fact, I had to have someone help me post the first time. But my mission has always been to help people and Facebook is a great way to stay connected.”

Dr. David Williams

Here's what you've missed

if you haven't been on Facebook lately.

Q: How do I know the amount of probiotics to take for my severe digestive issues? I have been taking 30 billion.

A: Regardless of what most of the people marketing probiotics would have you think, the number of CFU (colony forming units) in a product isn't the most important thing to consider. The variety of bacteria, and the delivery system used to ensure the probiotics actually reach the lower intestine are the crucial factors. (I've spent decades evaluating and testing different bacterial strains and the most efficient delivery techniques.) In the hot, moist environment of the intestinal tract, the replication rate of bacteria is extremely rapid. A few billion can turn into hundreds of billions in a few hours. It's also important to take probiotics on a very regular basis, especially with severe digestive issues.

Q: Can untreated peptic ulcers cause hair loss?

A: Hair growth is dependent on protein. With long-term, untreated ulcers, it is highly likely that your protein digestion has been impaired and could result in hair loss. It's also likely that you may be experiencing other signs or symptoms associated with a protein deficiency.

The sitoindosides in dried, unripe bananas increase mucus in the digestive tract, which provides a strong protective coating to help prevent and heal ulcers. The best results are obtained with banana powder. Peel and cut the bananas into thin slices. Dry them slowly in the sun, an oven, or a food dehydrator. Then grind them into a fine powder. Mix 2 tablespoons of the powder with 1 tablespoon of honey. Take this mixture three times a day: mid-morning, mid-afternoon, and at bedtime.

For more great health tips, visit **Dr. Williams on Facebook!** 

Outsmart Aging...

Enjoy the freedom and wisdom that comes with each birthday with robust good health and a strong, healthy mind. It's all possible with good nutrition, exercise, and the key ingredients found in my power duo for optimal mind and body support—**ResveraPrime® Advantage** and **CogniPrime® Advantage**.

ResveraPrime Advantage gives you research levels of Setria® L-glutathione, the most effective form of the powerful antioxidant glutathione; 250 mg of this active, reduced form delivers tremendous antioxidant, immune and detoxification benefits.¹ I've also included Extrimel® melon extract to help reduce symptoms of stress and trans resveratrol to help enhance cellular health.

Clinically studied nutrients help keep your brain primed for peak performance

While **ResveraPrime Advantage** supports your body, **CogniPrime Advantage** contains a specific combination of nutrients including Cereboost™ American Ginseng Extract and Synapsa® Bacopa Extract that work together to support your brain and cognitive health.

One study found that both attention and recall improved in individuals given Cereboost, a premium American ginseng full of brain-nourishing ginsenosides. That means support for recalling numbers, names, and words!

In another study, participants given 250–320 mg of Bacopa extract performed better on 5 cognitive function tests than those taking the placebo.²

CogniPrime Advantage also gives you vitamins B6 and B12 for neurotransmission support and overall brain health. And I've included vitamin D and folic acid, which support normal homocysteine levels for optimal cognitive function.

Together, **ResveraPrime Advantage** and **CogniPrime Advantage** give your mind and body the support they need to help you stay in your prime.

CogniPrime® Advantage

SUPPLEMENT FACTS | 2 CAPSULES GIVE YOU:

Bladder Control Advantage™

The secret to a better bladder...

- Less rushing to find the nearest bathroom
- Less worry when you go to family gatherings, see a movie, or take a long car ride
- Better sleep with fewer exhausting bathroom interruptions

You don't have to worry about hiding your secret any longer. Thanks to the power of nature and an amazing advancement in nutritional science, there's an honest-to-goodness way to get better control of your bladder in less than 2 weeks.

Bladder control blend helps reduce urination day and night

Japanese researchers found that water-soluble pumpkin seed extract and special soy isoflavones help tone your pelvic floor muscles, which helps to reduce the likelihood of occasional leaking, reduce nighttime urination, improve sleep, reduce trips to the bathroom, and provide greater bladder control.^{1,2}

Plus, I made sure **Bladder Control Advantage** provides an extra level of insurance by helping to tone your bladder muscle.

Ancient Ayurvedic secret reduces urine leakage

Traditional healers in India struck gold when they discovered the power of three leaf caper. Research shows it supports the muscle tone in the bladder area, which is important in maintaining better bladder control. I had to include this powerhouse in **Bladder Control Advantage**.

SUPPLEMENT FACTS | 2 CAPSULES GIVE YOU:

Bladder Control Complex Pumpkin Extract (seed),* Three Leaf Caper Extract (leaf), Soy Extract (germ)* **1,100 mg**

Contains: Soy

*Go-Less® is a registered trademark of Frutarom, Ltd.

RECOMMENDED DOSE: For the first 2 weeks, take **1 capsule 3 times daily**. Afterward, take 2 capsules daily, 1 in the morning and 1 in the evening.

★★★★☆ *"Can now easily make it to the bathroom without urgent mishaps"*

Support prostate health and reduce age-related nighttime urination

Since its debut, **Healthy Prostate™** has been a tried-and-true prostate formula, delivering remarkable prostate health results with 5 breakthrough nutrients from around the world. And I've seen the results firsthand:

- ✓ **Easier urination—fewer uncontrollable stops and starts**
- ✓ **Better sleep—less getting up at night to go**
- ✓ **Fewer urges to go**

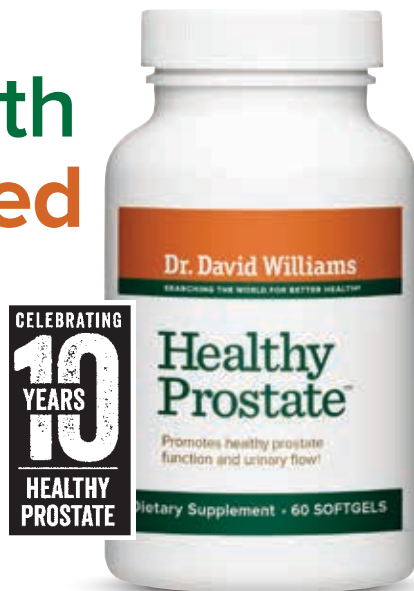

Healthy Prostate gives you:

BETA SITOSTEROL to support healthy prostate size and healthy urinary flow

SAW PALMETTO to help maintain a healthy prostate and improve urination

HMRIGNAN™ to protect your body from harmful free radicals

SELENIUM to help protect your cells from free radicals and provide immune support

MERIVA® TURMERIC EXTRACT to target inflammatory markers

SUPPLEMENT FACTS | 2 SOFTGELS GIVE YOU:

Selenium (as selenomethionine) **200 mcg**; **Saw Palmetto Extract** (berry) **320 mg**; **Meriva®*** Curcumin Phytosome Turmeric Extract (rhizome), Phosphatidylcholine (from sunflower) **250 mg**; **Beta Sitosterol** (from vegetable oil) **60 mg**; **Norway Spruce Lignan Extract†** (knot wood) **30 mg**

*Meriva® is a registered trademark of Indena S.p.A.
†HMRlignan™ is a trademark of Linnea.

RECOMMENDED DOSE: Take **2 softgels daily**, 1 with breakfast and 1 with lunch or dinner.

REAL PEOPLE, REAL RESULTS!

Excellent supplement!

“My husband is sleeping much better with fewer interruptions to get up during the night.*”

—Online Review

It works!

“A few years back I was starting to need to get up nightly, even though I was taking another ‘prostate’ supplement. I switched to **Healthy Prostate** and that stopped, never to return so far.*”

—Online Review

*Results may vary.

Super Healthy Prostate™

Advanced prostate support

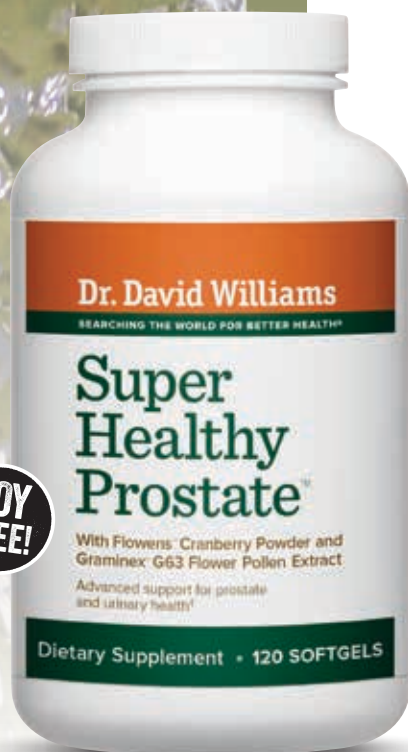

Get ready to pee like a power washer again

I love riding my Harley down here in Texas. But when you're on the road, prostate problems are not an option. Try telling your road buddies that you gotta pee again. No way! So I created **Super Healthy Prostate™** to give you back your freedom. It works so well day and night that some men forget to take it! I don't care if you're already taking a prostate product, **Super Healthy Prostate** will work like nothing you ever imagined possible.

“Cowboy up,” like they say in Texas, and do what's best for your prostate

As a natural part of getting older, your prostate might not work as effectively as it used to. That's what contributes to the dribbling you may experience. It also makes it harder for you to empty your bladder. Your bladder muscles have to work harder. And you feel the urgent, uncomfortable need to go all the time. You have trouble sitting through a movie, meeting, or a dinner without running to the bathroom. You're constantly getting up at night to pee.

Trust me—that's no way to live. I've been there. That's why I've included what I consider to be the world's best, most effective solutions for your prostate in **Super Healthy Prostate**. I've done my homework. I take it myself. And it works like crazy for me. I can ride my Harley clear across Texas and never think about the nearest bathroom. All thanks to the 7 powerful ingredients in **Super Healthy Prostate**.

- 1. Graminex G63™ Flower Pollen Extract** significantly reduces nighttime trips to the bathroom—one of the biggest complaints I hear from men about their prostate. Plus, studies show it also improves urinary flow and bladder emptying.¹ I made sure **Super Healthy Prostate** gives you the full 400 mg research dose.

- 2. Flowens™ Cranberry Powder** helps improve urinary flow and volume. A study shows the reduction in the amount of urine left in the bladder, also known as PRV (post void residual volume), and at the same time, urinary flow rates improved.² I included the full 500 mg research dose.

- 3. Beta Sitosterol** helps support healthy prostate size and promotes healthy urine flow. One study showed that participants were able to more completely empty their bladders—so they didn't feel like they still had to go.³ Better yet, 18 months later in a follow-up trial, they found that the benefits were still working.⁴

- 4. Saw Palmetto** provides more prostate relief by inhibiting the conversion of the hormone testosterone into dihydrotestosterone (DHT). Studies show that normal DHT levels help maintain a healthy prostate and improve urination.⁵

- 5. HMRLignan™** is a spruce extract that helps to protect your body from harmful free radicals. I included 30 mg in **Super Healthy Prostate**, which is the ideal dose identified by Finnish researchers.

- 6. Selenium** neutralizes free radicals to help protect your cells and provide immune support. Selenium provides remarkable prostate health support so I was sure to include it in **Super Healthy Prostate**.

- 7. Meriva® Turmeric Extract** helps promote a healthy inflammatory response. Meriva is more bioavailable than ordinary curcumin—so it gets into your cells easier than other sources.

Don't rely on luck or chance. And certainly don't just accept prostate concerns. I'm convinced that **Super Healthy Prostate** is an effective, natural prostate solution. That's why I take it myself.

SUPPLEMENT FACTS | 4 SOFTGELS GIVE YOU:

Selenium (as selenomethionine) **200 mcg**; **Flowens™ Cranberry Powder** (fruit) **500 mg**; **Graminex® Flower Pollen Extract G63™** **400 mg**; **Saw Palmetto Extract** (berry) **320 mg**; **Meriva®* Curcumin Phytosome** **250 mg**; **Beta Sitosterol** (from vegetable oil) **60 mg**; **HMR®†** **Norway Spruce Lignan Extract** (knot wood) **30 mg**

[§]Flowens™ is a trademark of Naturex, Inc.

Suffering from Arthritis?

PASS THE JELLO, Please!

Osteoarthritis is more common today than any time in history and a recent study shows that age and obesity aren't driving it. The study suggests one reason arthritis cases are rising has to do with nutrition. Our society has increasingly been turning to a more grain-based diet, which has led to an imbalance of amino acids. Many of the amino acids we are lacking form the building blocks of proteins needed for joint health.

Over the past 100 years or so, we've eliminated most of the collagen from our diet. Collagen is the primary protein in connective tissue that is present in tendons, ligaments, bone, cartilage, and skin. Before the turn of the century, our ancestors readily consumed the collagen-rich portions of animals (offal, oxtail, joints, skin, gizzards, etc.). Our ancestors also experienced far fewer bone and joint problems.

Benefits of gelatin in your diet

Fortunately, there's been a slight resurgence in the popularity of collagen-rich foods like bone broth, bone marrow, and some organ meats. But if you're someone who still has no intention of adding tripe, pig snout, pork trotter, oxtail, or beef tongue to your menu, there's a way to increase your collagen intake, rejuvenate connective tissue, and improve joint health—gelatin.

Gelatin is the cooked form of collagen. It's the semi-clear, jelly-like component that accumulates in the bottom of the container your rotisserie chicken came in. It forms when you cool the liquid after making bone broth or boiling a chicken.

Studies that bear out the many benefits of gelatin have typically used around 10 grams per day. Personally, I add roughly two tablespoons (25 grams) of gelatin to my morning protein shake.

For more quick and easy changes that you can make to your diet to help treat arthritis naturally go to www.drwilliams.com and search “arthritis and diet” in the search bar, then click on “Content” once the results populate or scan this code.

The best eye health ingredients from around the world

My **Vision Advantage®** formula brings the best eye health breakthroughs from across the globe and combines them with clinically studied ingredients, all designed to help keep your eyes healthy for the long haul.

It all starts with 2 award-winning ingredients: Lutemax 2020® Lutein, a clinically studied combination of lutein and zeaxanthin in a 5:1 ratio—the same ratio found in the human body—and clinically studied astaxanthin.

Lutein

Lutein works to shield your eyes from absorbing blue light, the most high-energy light that reaches your retinas. A brand-new study shows that supplementing with 10 mg of Lutemax 2020 Lutein (the amount in **Vision Advantage**) rapidly increases macular pigment optical density (MPOD). And higher pigment density supports visual acuity, light sensitivity, and glare recovery.

Astaxanthin

Several studies show that a special form of astaxanthin helps reduce the symptoms of eyestrain and fatigue, and supports eye health and visual acuity.^{1,2}

Astaxanthin is responsible for turning shrimp the color pink

Superior antioxidant cocktail

You also get an arsenal of antioxidants, including N-Acetyl L-Cysteine (NAC), which is most effective at increasing glutathione levels—nature's shield for your eyes and lenses.

2 unique herbal blends from across the globe

An ancient herbal blend called Hachimijiogan (pronounced ah-chi-mijo-jan) and an Ayurvedic herbal complex called Triphala have been traditionally used to support optimal eye health.

SUPPLEMENT FACTS | 3 CAPSULES GIVE YOU:

Vitamin A (as mixed carotenoids) **10,000 IU**; **Vitamin C** (as ascorbic acid) **120 mg**; **Vitamin E** (as d-alpha tocopheryl succinate) **150 IU**; **Zinc** (as glycinate) **18 mg**; **Taurine** **500 mg**; **N-Acetyl L-Cysteine** **250 mg**; **Hachimijiogan Herbal Complex** Astragalus (root), Asiatic Dogwood (fruit), Chinese Yam (root), Mountain Peony (root bark), Polyporus Mushroom, Rehmannia (root), Alisma (root), Schisandra (fruit) **100 mg**; **Triphala Complex** *Embolia officinalis* (fruit), *Terminalia bellerica* (fruit), *Terminalia chebula* (fruit) **50 mg**; **Lutein** (from marigold flower) **10 mg**; **Astaxanthin** (from algae) **6 mg**; **Zeaxanthin** (from marigold flower) **2 mg**

RECOMMENDED DOSE: Take 3 capsules once daily with a meal.
