

5 STAR REVIEWS!

—★★★★★—

"[The discomfort] in my knees, back, neck, shoulders and feet had really taken their toll on me. With this formula, I've noticed an incredible difference in my joints and bones...I feel like I used to years and years ago. I can run...do and enjoy being active!"*

—Elizabeth D.

"I am a retired man...(with) an active life. The terrain here is quite hilly and (my wife and I) walk between 1.5 and 2 miles each day. After taking your joint relief formula, all joint [discomfort] is greatly relieved and our walking becomes much more enjoyable!"*

—James B.

"This has given me a new lease on life! Yours is one product that I will definitely recommend to anyone who is experiencing joint...discomfort...because it works!"*

—George H.

"Have used it for years. Without it I would not be able to move like I do and would have soreness in my knee joints. Highly recommend it."*

—Online Review

"I have tried many different joint supplements and have found that Joint Advantage Gold 5x + Turmeric provides me with the most mobility and relief."*

—Online Review

"Purchased this product because it has all the major joint helping herbs with the right price! Very pleased with results!"*

Joint Advantage Gold 5X + Turmeric Ultimate Relief

"This advanced formula brings together the very best joint health supporters to target every joint concern—stiff, achy joints, lack of flexibility, cartilage, joint space—and it helps promote a healthy inflammatory response."

Dr. David Williams

Breakthrough Ingredients!

Meriva® Phytosome Turmeric Extract

Meriva is an exclusive turmeric extract with a curcumin active ingredient that's especially formulated to be absorbable so it gets into your system fast for rapid relief. In fact, research has shown that Meriva is 45 times more bioavailable than ordinary curcumin!

Clinical study participants taking 1,000 mg/day of Meriva for 90 days reported a **decrease in discomfort and stiffness** and improved physical function. They also reported a significant **decrease in C-reactive protein (CRP) levels**—an important inflammatory marker.

You get the same research-supported dose in **Joint Advantage Gold 5X + Turmeric** so you can experience these dramatic results and enjoy the healthy, active lifestyle you love.

AprèsFlex® Boswellia serrata Extract

AprèsFlex is clinically shown to help promote healthy inflammatory markers in the body while reducing joint discomfort and stiffness...starting in as little as 5 days! Standard boswellia is poorly absorbed by your bloodstream because it contains a glycoprotein that acts as a barrier. But AprèsFlex is enriched with an additional blend of natural compounds from the boswellia tree that inhibits the glycoprotein and significantly improves absorption.

Plus, AprèsFlex goes to work to reduce 5 of your body's top inflammatory markers... not just the COX-1 and COX-2 enzymes. And you get the full 100 mg research dose in **Joint Advantage Gold 5X + Turmeric**.

Bovine cartilage

I consider bovine cartilage the best natural source of hundreds of cartilage-friendly sulfates that support healthy joints. I insisted on using 100 mg of bovine cartilage from New Zealand that undergoes exclusive, gentle processing that doesn't strip away the natural nutrient content.

NEM® natural eggshell membrane

When put to the test, 500 mg daily helps relieve everyday joint discomfort, including a decrease in post-exercise induced discomfort.

Glucosamine sulfate

Study after study confirms that 1,500 mg of glucosamine sulfate promotes healthy cartilage and helps you maintain normal, comfortable joint space.

Plus: Secrets of relief from around the globe

Wild Rosella

I first learned about this herb in my medical research in Australia. It's packed with powerful antioxidants and vitamin C.

Devil's Claw extract

Devil's claw extract has been used medically for centuries. In vitro and animal experiments suggest that it helps support a healthy inflammatory response.

White Willow extract

White willow has been traditionally renowned for its soothing properties for thousands of years.

Yucca extract

Parts of yucca plants have been used for centuries in traditional Native American medicine.

Feverfew extract

This herb has been traditionally used for centuries for its ability to promote healthy inflammatory markers.

Celery extract

Traditionally used to fight discomfort in India and Australia.

Papaya extract

This tasty tropical fruit contains an enzyme known as papain, and has been used in wound healing.

Bromelain

Traditionally used by herbalists to promote a healthy inflammatory response and relieve everyday aches.
